

Specification of **Entry Conditions**

After a discussion among the FIA and Pirelli the following changes have been accepted to be added to the mentioned document:

- North Region shoot out will select 5 drivers (instead of 2)
- European shoot out will be organised 18. - 20. 9. 2009 (one week earlier) at the same place (Freistadt, Austria)
- Clarification of the Pirelli star driver results from each qualifying event: When there is the same amount of points at the end of the qualifying event the decisive criteria for final order is the higher points from SS1 (after SS 2,3, ...).
